# Unforgettable Road Trips

Get to know Quebec in the most authentic way possible with a drive down one or several of the tourist routes and circuits that will have you following the river, zigzagging through the countryside and winding around lesser-known paths. The official routes, clearly identified with blue road signs, are designed to showcase the regions' cultural and natural treasures.

Tourisme Côte-Nord © Marc Loiseleur

## Whale Route

Discover the secrets of this circuit on the north shore of the St. Lawrence Estuary and Gulf that brings you to see the Mingan Archipelago, known for its sea-sculpted limestone monoliths and rich, diverse fauna and flora. Stretching across the regions of Manicouagan and Duplessis, this route is lined with shoreside attractions and impressive natural sites that travellers can explore on a sea expedition or whale-watching trip. Distance: 880 km/547 mi.

## King's Road

This circuit goes through Lanaudière, Mauricie and Québec City and Area. Built in 1737, it was one of the first roads of its size in North America. It leads to picturesque old villages where you'll find many 300-year-old homes that are absolutely charming. Running on the north shore parallel to the majestic St. Lawrence River, this circuit with breathtaking views is part of the Route verte cycling network, making it safe for road trippers to bike on. Distance: 260 km/162 mi.

## Navigators' Route

Follow the waves and explore the historical, cultural and maritime points of interest of the Centre-du-Québec, Chaudière-Appalaches and Bas-Saint-Laurent regions. Take this route to admire the river and marvel at the rich fauna and flora to discover at roadside stops. Climb to the top of an old lighthouse, set sail on the St. Lawrence to see the islands, go sea kayaking or take part in any number of other activities! Distance: 470 km/292 mi.

## A cosmopolitan universe

As the most urban of the province's regions, Montréal shines with a diversity of cultures and people. From one end of the island to the other, you'll find a string of festivals, a multiplicity of flavours and a *joie de vivre* that gushes through day and night. The beat of the metropolis is calling!

> Discover the region's must-sees in the **digital version** of the Guide.

### Vibrant cities

Admire the breathtaking view of the city from the Observatory of the **Montréal Tower** – the tallest inclined tower in the world. It's easy to understand why this tourist attraction is so often included in travel guides; on a clear day, you can see at a distance of 80 km (49 mi.). In the fall, the panorama is a flamboyant tapestry created by the mass of trees of the surrounding areas and the nearby Botanical Garden and Maisonneuve Park. Before you take the funicular back down, don't forget a trip to the souvenir shop!

Choose the Old Port of Montréal for your next family adventure. Open from May 5 to October 8, 2018, and built in a hundred-year-old hangar, **SOS Labyrinthe** is a mile-long maze filled with obstacles, dead ends and traps. Your goal on this historical quest is to search for the hidden treasures of the longshoremen. The maze's pitfalls and false leads will have you in fits of laughter and shouting in excitement. A great time is sure to be had by all!

If you love laser games, escape rooms and karting, head to the brand new **Action500** location in Dorval. Be among the first to try out their top-of-the-line electric karts! After a

few laps on the track, move on to the laser tag field and get ready to be blown away; the game area is so gigantic that the designers had room to fit an airplane and a helicopter. No joke! There's also X-Cape, an immersive adventure where participants have to solve riddles and puzzles to complete their mission.

There's something new again at **La Ronde!** First of all, a ride called the Tourbillon is a blast for all ages. This type of ride seen frequently at amusement parks and fairs is a whirlwind of fun. Many special events are also scheduled for the 2018 season, such as Family Saturdays on June 9, 16 and 23, the International des Feux Loto-Québec fireworks shows from July 7 to August 8, Bavarian weekends between September 8 and 16, and Fright Fest from October 6 to 28. What's more, September 21 marks the return of Nuit Blanche, when the theme park will be open all night for adults.

## Marvel at the rich culture

A place of nature, culture and spirituality, **Saint Joseph's Oratory** welcomes you in the heart of the city. Founded in 1904, the most important shrine in the world dedicated to Saint Joseph is an exceptional place of pilgrimage associated to Saint Brother André, its founder. The distinctive architecture of this building, and above all its imposing dome, give it a remarkable physical and symbolic presence in Montreal. Let yourself be inspired by the Garden of the Way of the Cross, the exhibitions of the Oratory Museum, the organ concerts and the carillon recitals.
