The so-called "metropolis of experiences," this famously clean and efficient city consistently wins over travelers on multiple fronts, from its exclusive Bahnhofstrasse to its access to breathtaking hikes to its famed jewelry, fashion and watches.

Interlaken

Switzerland

Tucked between Lake Thun and Lake Brienz is Interlaken, a small city famed as much for its geographic identity as its storybook scenery. Three mighty mountains, Eiger, Mönch and Jungfrau, tower above, while the city itself is intimate enough that visitors can get around by bicycle or on foot. Situated on an alluvial plane, Interlaken is the starting point for numerous activities. Over 45 mountain railways, cable cars, chair lifts and ski lifts service 200 kilometers of pistes and a dense network of hiking trails. The **Tropical Hothouse Frutigen** isn't just the newest tourist attraction in the Bernese Oberland, it's one of the most fascinating -- part science experiment, part public exhibition. Every second, around 100 liters of pure mountain water flow out of the base tunnel, which also carries trains through the Lötschberg. The natural warmth of the water is used for the sustainable production of exotic fruit, caviar and, eventually, some 60,000 sturgeon. Not to be missed.

Lausanne

Switzerland

Deep in the Swiss Riviera is the hilly lakeside city of Lausanne. Lake Geneva spreads out below, with vineyard-covered slopes all around. What might seem like a quaint, medieval locale -- it's largely car-free, and given to peaceful walks along the water -- in fact brims with life. The nation's highest court is based here, as is the International Olympic Committee and a mishmash of cafes, boutiques and university-centric nightlife. Rising impressively from the opposing French lakeshore are the Savoy Alps, and some of the best skiing in the world.

Switzerland

Situated on the southern side of the Swiss Alps, Engadin St. Moritz is known throughout the world as the “festival hall of the Alps.” With its bright, sunny days, its mineral springs and a pleasant climate, the resort town is a favorite among the Swiss and international travelers alike. Bregenz

Austria

On the eastern shores of one of Europe’s largest lakes lies the friendly and inviting city of Bregenz, capital of Vorarlberg. Bordering Germany, Switzerland and Liechtenstein, the region is known for its blend of first-class culture and jaw-dropping mountainous landscape. Start the day at a café on Kornmarktplatz, the city’s (newly renovated) heart, then pop over to the exhibitions at the Kunsthaus Bregenz, home to an electrifying collection of contemporary art; later, learn about the region’s deep history at the new Vorarlberg Museum (its roots go back to Roman times). Both the Bregenz bay on Lake Constance and Pfänder mountain are postcard-worthy sites. Take a cruise on Lake Constance and touch Swiss, German and Austrian shorelines.

Bregenzerwald

Austria

In the westernmost tip of Austria lies the Bregenz Forest, or Bregenzerwald. "Forest" tells only part of the story: mountains, pastures, 22 picturesque villages, a premiere skiing location, 30,000 inhabitants and almost as many cows. UNESCO has recognized the cultural significance of the region, and its farming and cheese production traditions remain largely intact. (Don't miss the "alpine cheese.") But age-old knowledge and skills also offer a solid foundation for innovation here – case in point, Bregenzerwald's award-winning architecture and craftsmanship. The region is also home to the village of Schwarzenberg, whose well-preserved center – the old "Hof" – boasts a harmonic interplay of historic buildings, charming streets and quaint squares. The Baroque church, the dancing house (a former courthouse) and 16 other historic houses have been well-preserved. bregenzerwald.at, tourismus.schwarzenberg.at
